Supplier Quality Engineer

May 2017

Mobidiag is a biotechnology company specialized in the development, sales and marketing of innovative *in vitro* diagnostic (IVD) products for severe infectious diseases. The molecular diagnostic tests of our newly launched Amplidiag™ product line are sold to clinical laboratories in and outside Europe and they provide quick and comprehensive information to guide efficient patient management. For more information about Mobidiag, please visit www.mobidiag.com.

We are now looking for Supplier Quality Engineer to strengthen our team in Espoo, Finland

Supplier Quality Engineer Job Responsibilities:

Participation in supplier management activities aiming at regulatorily compliant purchase and supplier control. Supplier quality engineer will be a member of Mobidiag's design transfer team. Design transfer team works independently but in close co-operation with design, manufacturing, and quality management personnel. Daily work will include activities from the following categories:

- supplier evaluation and qualification
- supplier auditing
- supplier monitoring
- purchase information control

Education and Work Experience:

Candidate should ideally have minimum Bachelor's degree in an applicable field, e.g.

- biosciences
- engineering (e.g. bio & food sciences, chemistry)
- medicine/health care
- pharmacology
- veterinary medicine

Previous work experience in a regulated life science industry (e.g. medical devices or pharma) especially in a field of supplier management is considered as a strong benefit to the candidate. The candidate is expected to have a formal lead auditor/auditor competence and experience of performing and leading on-site supplier audits.

Personal characteristics and skills

Good spoken and written English. Excellent documentation skills (in English). An attitude to plan analytically and work systemically. Socially talented people person who enjoys co-operation with suppliers. Willingness to travel for the job is a requirement.

Applications with CV and salary request shall be sent to timo.soininen@mobidiag.com no later than 4th June 2017.
