

Mobidiag Signs Agreement with Interlux for the Distribution of Amplidiag[®] Diagnostic Tests and Instruments in Estonia

ESPOO, Finland, November 23rd, 2017 – Mobidiag Ltd, a Finnish molecular diagnostics company, today announced a distribution agreement with Interlux OÜ, supplier of technologies for medicine, science and biotechnology industry. Under this agreement, Interlux becomes the exclusive distributor of the Amplidiag[®] product line in Estonia, in vitro diagnostic tests and compatible instrument for the detection of gastrointestinal infections.

“Thanks to a large distribution network, our Amplidiag product line is now accessible in most Western European countries. This new distribution agreement allows us to introduce the Amplidiag product line to the Baltic region starting with Estonia. We are then very happy to start this new partnership with Interlux to support us in this new market”, said Miquel Vernet, CCO at Mobidiag.

“Cooperation with Mobidiag offers the customers of Interlux high-quality diagnostic results. I believe that together with Mobidiag we can improve the medicine in Estonia and offer solutions to laboratories that will have greater effect on the patient”, said Karin Kõnd, CEO at Interlux OÜ.

The agreement is effective immediately and covers all Amplidiag IVD tests (Amplidiag H. pylori+ClariR, Amplidiag Stool Parasites, Amplidiag CarbaR+VRE, Amplidiag C. difficile+027, Amplidiag Bacterial GE, Amplidiag Viral GE and upcoming Amplidiag CarbaR+MCR) as well as the Amplidiag Easy instrument.

About Amplidiag products

Amplidiag are innovative multiplex tests for the detection of gastrointestinal infections. They allow panel screening of the most relevant gastrointestinal pathogens. Based on well-established real-time PCR technology, they ensure optimal performance, suitability for high-volume screening use and cost-effectiveness in mid-sized to large laboratory settings. In addition, Mobidiag allows process automation from sample extraction to PCR set-up with the Amplidiag Easy system.

About Mobidiag Ltd

Established in 2000, Mobidiag develops innovative solutions to advance the diagnosis of infectious diseases and serves the European clinical diagnostics market since 2008. Mobidiag is headquartered in Espoo, Finland, with a subsidiaries in France, UK and Sweden.

Mobidiag addresses both high to medium volume screening with the Amplidiag Easy instrument, bringing the Amplidiag suite further by automating the workflow from sample to results, and the upcoming Novodiag[®] instrument & associated panels for fully automated diagnostics for targeted and syndromic testing, and suitable for smaller volumes and labs.
