

*Mobidiag develops innovative molecular solutions to advance the diagnosis of infectious diseases and antibiotic resistances. With its broad range of tests and instruments based on well-established PCR technology, Mobidiag allows fast and cost-efficient detection of most common bacteria, parasites, viruses and antibiotic resistances to answer any microbiology laboratory requirements. Mobidiag is headquartered in Espoo, Finland with subsidiaries in France, Sweden and UK. For more information about Mobidiag, please visit [www.mobidiag.com](http://www.mobidiag.com)*

We are Mobidiag, team of roughly 100 people in 4 countries driven by creating something meaningful and helping the world to be a better place by offering solutions to detect infectious diseases and antibiotic resistance. By using our tests patients get targeted treatment faster, more efficiently and more reliably.

We take our jobs seriously because we're doing something important for the world. We can't do it alone and we need the best people. Are you one of them?

We are currently looking for a talented **IT Infrastructure Manager** to join our growing team in Espoo. In this position you will manage roadmap and project portfolio for IT infrastructure related services and technologies. You will work closely with all the functions to ensure IT infrastructure is aligned across the company. You will identify potential solutions and technologies to ensure IT infrastructure and associated technologies operate efficiently within agreed targets. In addition to coordinating the projects you are expected to have a hands-on approach and be enthusiastic on implementing initiatives in practice.

**Ideally, you should have:**

- BSc in Computer Sciences or a related subject e.g. IT or Software Engineering with 5+ years of relevant work experience
- Solid experience in managing global IT project implementations
- Ability to understand and interpret complex business and IT requirements
- Broad understanding of IT hardware, software, operations and networks
- Excellent communication and inter-personal skills including the ability to gain acceptance for ideas and solutions, both in Finnish and English
- Willingness to travel occasionally
- In addition to knowledge and vision in generic companywide IT needs, an ambition to work together with domain experts on specific needs for R&D, Production, Quality and Regulations and other functions in the company
- Experience in organization involved in regulated Medical or IVD device development is considered as a huge plus

**What we offer to you:**

- **Possibility to grow and expand your expertise** –working in a growing company you will get involved in full spectrum of challenges
- **Having fun** – your future team members are enthusiastic, energetic and talented
- **Opportunities to learn continuously** – we believe in investing in our employees and ensuring their knowhow is top notch
- **Balance between work and leisure time** – we appreciate you when you're not working too, and want to ensure you can recharge and have fulfilled leisure time before going back to saving the world

- **Ongoing company meetings and events** – we believe that having all the staff together for couple of days outside the office brings added value for both the company and the employees
- Tell us what would make you happy to join and stay. We won't promise what we can't live up to.

**You'll love it here if you:**

- Are excited to be one of the key players in building meaningful and important solutions
- Like everything about taking new challenges and have an open mindset
- Like to collaborate and work in teams but also can fly solo
- Want to work in an environment adapted to employee's needs
- Want to grow and brush up your skills among experienced and fun colleagues

If you have any questions or doubts, please contact Director, Software Development Jukka Ahonen at [jukka.ahonen@mobidiag.com](mailto:jukka.ahonen@mobidiag.com) or by phone +358 50 386 6585).

If you already made your decision, please send your CV and application to HR Manager Hanna Osara at [hanna.osara@mobidiag.com](mailto:hanna.osara@mobidiag.com) by March 17<sup>th</sup>, 2019. Use "IT Infra Manager" in the subject line.
