

We are Mobidiag, team of roughly 200 people in 4 countries driven by creating something meaningful and helping the world to be a better place by offering innovative solutions to detect infectious diseases. As a fast-growing dynamic international company Mobidiag has doubled its personnel in one year. With the broad range of tests and instruments based on well-established PCR technology, Mobidiag allows fast and cost-efficient detection of most common bacteria, parasites, viruses and antibiotic resistances to answer any microbiology laboratory requirements. By using our tests patients get targeted treatment faster, more efficiently and more reliably. Mobidiag is headquartered in Espoo, Finland with subsidiaries in France, Sweden and UK.

We take our jobs seriously because we are doing something truly important for the world. We cannot do it alone and we need the best people!

We are now looking for a

SUPPLIER QUALITY ENGINEER

to strengthen our growing Supply Chain and Logistics team in Espoo. In this position you will be responsible for managing the quality and performance of external suppliers, contract manufacturers and service providers in alignment with company goals and objectives. The primary focus of this position is to work with suppliers to ensure product quality.

Your key responsibilities are the following:

- Perform and manage risk-based supplier evaluations and qualifications
- Manage and coordinate supplier risk evaluation activities
- Define requirements for supplier quality
- Support R&D and production regarding supplier selection and product specifications
- Support drafting supplier agreements
- Perform supplier audits

Ideally, you should have:

- Master's degree in Biosciences, Medicine, Pharmacology, Engineering or corresponding coupled with minimum of 3 years of work experience in supplier management in an applicable field, preferably IVD
- ISO 9001:2015 and/or ISO 13485:2016 Auditor/Lead Auditor Qualification
- Basic understanding of regulatory IVD requirements in Europe and US (Directive 98/79/EC, Regulation (EU) 2017/746 and 21 CFR Part 820)
- Good written and verbal communication skills in English and Finnish
- Excellent interpersonal and influencing skills; able to express ideas and collaborate effectively with multidisciplinary teams at all levels
- Willingness to travel

We offer you:

- Possibility to grow and expand your expertise – working in a growing company you will get involved in full spectrum of challenges
- Opportunities to learn continuously – we believe in investing in our employees
- Having fun – your future team members are enthusiastic, energetic and talented

If you have any questions, please contact Purchasing and Logistics Manager Henna Himanen at +358 50 300 2275 between 9 am and 4 pm. If you already made the decision to apply, please send your CV, application and salary request by end of January 2021 to recruitment@mobidiag.com. Please use “Supplier Quality Engineer” in the subject line.
